Proposals from the Rural Pact preparatory group for the Rural Pact conference on 15-16 June 2022

Introduction

With the adoption of the Communication on a Long-term Vision for the EU's rural areas, the European Commission committed to setting-up a Rural Pact. This Pact will contribute to reaching the shared goals of the Long-term Vision for the EU's rural areas but also fits into the EU's broader commitment of implementing the United Nation's Sustainable Development Goals and ensuring balanced territorial development.

Following the launch of the Rural Pact Community, in December 2021, over 1000 individuals and organisations have endorsed the shared goals of the rural vision and want to work towards their achievement. This draft is the next step in the Rural Pact process. Drafted by EU institutions and rural stakeholders¹, it outlines the main features of the Rural Pact. Rural Pact Community members were invited to express their views on this proposal in May through a survey. Their feedback was taken on board for the final proposal which was presented at the Rural Pact conference on 15 and 16 June 2022.

Objectives

The Rural Action Plan, which was adopted with the Long-term Vision for the EU's rural areas, represents the European Commission's commitment to acting for rural areas. One of its actions is to propose a Rural Pact, which aims to strengthen multi-level governance for the EU's rural areas. This means that the Pact will engage the European, national, regional and local level, all of which have a key role to play in the future of rural areas, to work together.

The activities of the Rural Pact could be classified as contributing to three broad objectives:

¹ Presidency of the Council of the EU, the European Committee of the Regions, the European Economic and Social Committee, ELARD, PREPARE and ERCA from the European Rural Parliament, as well as the European Parliament and the European network for Rural Development as observers.
