Policy action LAB 14 December 2024 - EU funds paving the way to the rural vision

# **Experience in Lower Saxony coordinating EU-funds**

Barbara Fährmann Lower Saxon Ministry for Federal and European Affairs and Regional Development

Department 103, Managing Authority EFRD/ESF+ and EAFRD-Coordination

### Outline

- 1. "Coordination" Governance of EAFRD, ERDF, ESF+ since 2014
- 2. Cross fund strategic framework for preparing the funding period 2021-2027
- 3. Coordination and exchange mechanisms during the implementation period
- 4. Obstacles to better interfund-coordination

## 1. "Coordination" Governance of EAFRD, ERDF, ESF+ (1)

- Since 2014: aim of better coordinating and strengthening the links to overarching political and regional objectives
- Reorganisation in two steps:
  - 2014 Integration of the Managing Authority (MA) of ERDF/ESF together with a strategic coordination of EAFRD in the State office and Establishment of four offices for regional development
  - > 2017 Establishment of a new ministry: Lower Saxon Ministry for Federal and European Affairs and Regional Development (short European Ministry)

- Enhancing strategic approach: coordination of priorities and alignment and of EU-programmes
- Common understanding and approaches for the cross-cutting objectives
- Bundling of knowledge and knowhow
- Harmonisation of rules und regulations as far as possible (grant law ....)
- Common reporting system to monitor the regional up-take of ERDF/ESF and EAFRD
- Territorial approaches an tailored solutions for the different Regions of Lower Saxony

## 1. "Coordination" Governance of EAFRD, ERDF, ESF+ (2)

Ministry of Agriculture

#### MA EAFRD

- Alignment of the support measures
- Financial planning und financial management
- Monitoring

Ministry for Federal and European Affairs and Regional Development

#### EAFRD-Coordination

MA ERDF/ESF+

Regional Development

Interreg ...

- Overarching issues and strategic cornerstones
- Evaluation
- Chair of EAFRD Monitoring Committee

#### **Granting authority EAFRD**

(a.o. LEADER, Village renewal, Interfund-coordination on (sub-)regionale level basic services and local supply

4 Offices for regional development

- Advice for all EU funds
- Assessment of regional significance for projects as part of the ranking
- Granting authority for national programmes

## 2. Cross fund strategic framework for 2021-2027- Mission + Goals

- 2018 mandate of the Land Government for the Lower Saxon European Ministry:
  - to develop an optimal and broadly accepted funding landscape,
  - to apply funding as efficiently and well-coordinated as possible,
  - to simplify funding as much as possible
- Development of the EU-funding strategy in a broad bottom-up approach
- Online consultation of over 500 representatives of the civil society, economy and scientific community.
- Thematic workshops with the respective representatives of the ministries and lobbying groups.

- Three strategic objectives (innovation, climate protection, biodiversity, future viability of all regions)
- High demand for place based approaches in order to adapt funding instruments to the needs
- Making use of synergies between the different European funds and hence making them more efficient

## 2. Cross fund strategic framework for 2021-2027 - Outcomes

#### Establishment of three territorial Instruments at different scales including urban and rural areas

Resilient city centres

ERDF (15 Citys)

"Regions of the future"

Combining ERDF and ESF+ (14 regions)

LEADER

EAFRD (68 regions)

Strong involvement of the four Offices

#### Establishment of a good division of labor for certain fields of action: e.g. rewetting of peatlands

Raising the groundwater level and peatland friendly farming practices

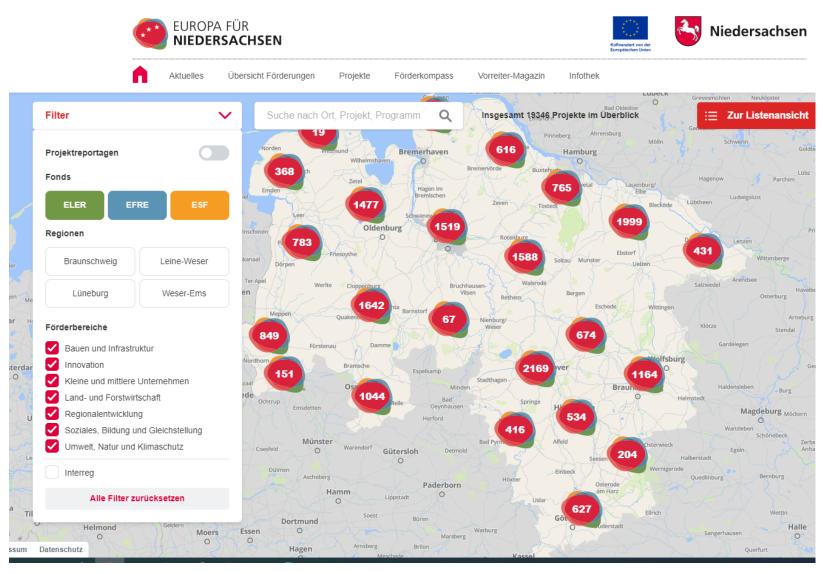

Agri-environmental scheme

Research for new farming practices and new marketable products

## 3. Coordination and exchange mechanisms during implementation

- Meeting of ERDF/ES+F Managing authority stuff and EAFRD Coordination once per week
- Continuous exchange and Jour fix with the EAFRD Coordination EAFRD Managing Authority at least once a quarter;
- Mutual membership in the Monitoring Committees (EAFRD and ERDF/ESF+)
- Common reporting of approval and disbursement dates of EAFRD, ERDF, ESF+ on County level (Ministry, and offices for regional development)
- Sharing Evaluation results
- Joint publicity and public relation work: Europe for Lower Saxony
- Joint projects: regional dialogue process for simplification and reduction of administrative burden (in planning)

Part of the joint publicity and public relation:

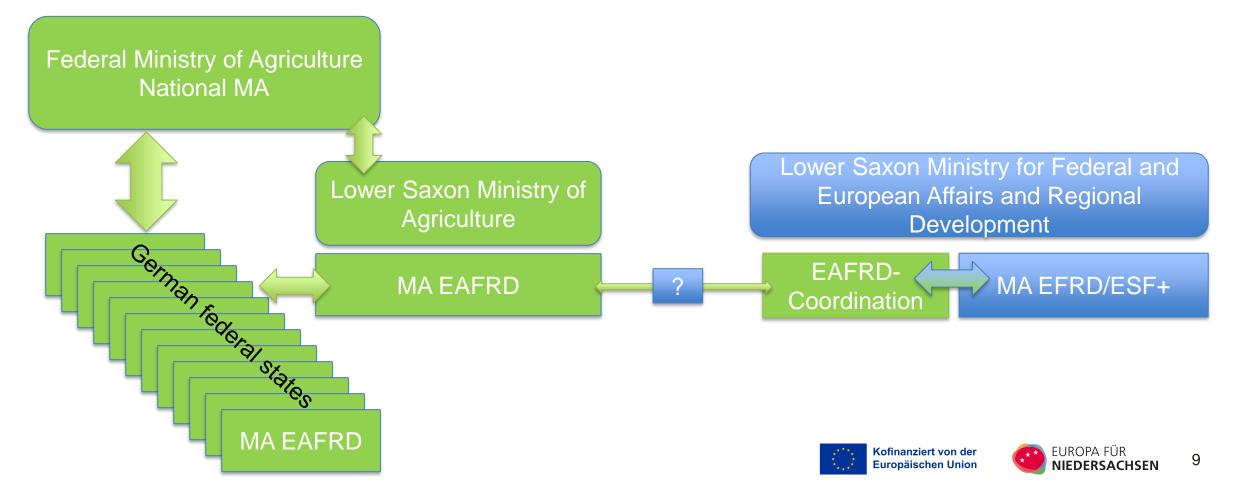

- interactive project atlas including EAFRD, ERDF and ESF+
- Projects can be filtered according to funding areas/topics

## 4. Obstacles to better interfund-coordination (1)

- Delayed start of EARDF (CAP) new funding period difficult to integrate EARDF in the funding strategy approach until the end
- Difficult communication and joint activities due to the different running times of the funding period
- The fact that the EARDF is no longer "member of the Structural Funds family"
- Integration of the EARDF in a single national CAP strategic plan
- ➤ No longer independent Rural Development Programmes (RDP) on the regional level like the other Programmes (monitoring, evaluation etc ...)
- Exhaustive and time consuming coordination process between
  - a. all the German federal states (regions) in order to harmonise their EARDF interventions
  - b. the federal states and the federal Level
  - c. EAFRD and EAGF departments (on federal an regional level)

## 4 Obstacles to better interfund-coordination (2)

Few Resources left for all that is not mandatory, e.g. coordination with the other funds

## 4. Obstacles to better interfund-coordination (3)

#### **Regarding EAFRD**

- Development of a completely new reporting system (result orientation, performance report etc.) within the EAFRD
- Dominance of agriculture-related issues (and conflicts) more sector specific plan as a territorial perspective
- Little attention to broader socio-economic topics and interventions

#### **Regarding Structural funds**

- Provisions on thematic concentration together with the investment guidance: strong emphasis on Innovation! Little room for maneuver to address issues of general interest especially in rural areas (health, demographic change, etc.)
- No specifications for evaluating the effects of funding on rural areas
