This Good Practice Webinar, organised by the Rural Pact Support Office in collaboration with SMARTA-NET, will focus on the role that local communities play in enhancing the mobility options on their territories and contributing to a fair socio-economic development of the area.

The webinar, organised in collaboration with [SMARTA-NET](#), will showcase inspiring lighthouse examples of developing smart mobility in and between rural areas and improving accessibility with peri-urban areas. It will focus on three main implications of improving rural mobility:

- > Supporting the development of **rural tourism**;
- > Enhancing mobility for strengthening **access to basic services** (e.g. health, education, leisure);
- > Strengthening **territorial and social cohesion**.
