HUB SKLAD
UNIVERZA V LJUBLJANI

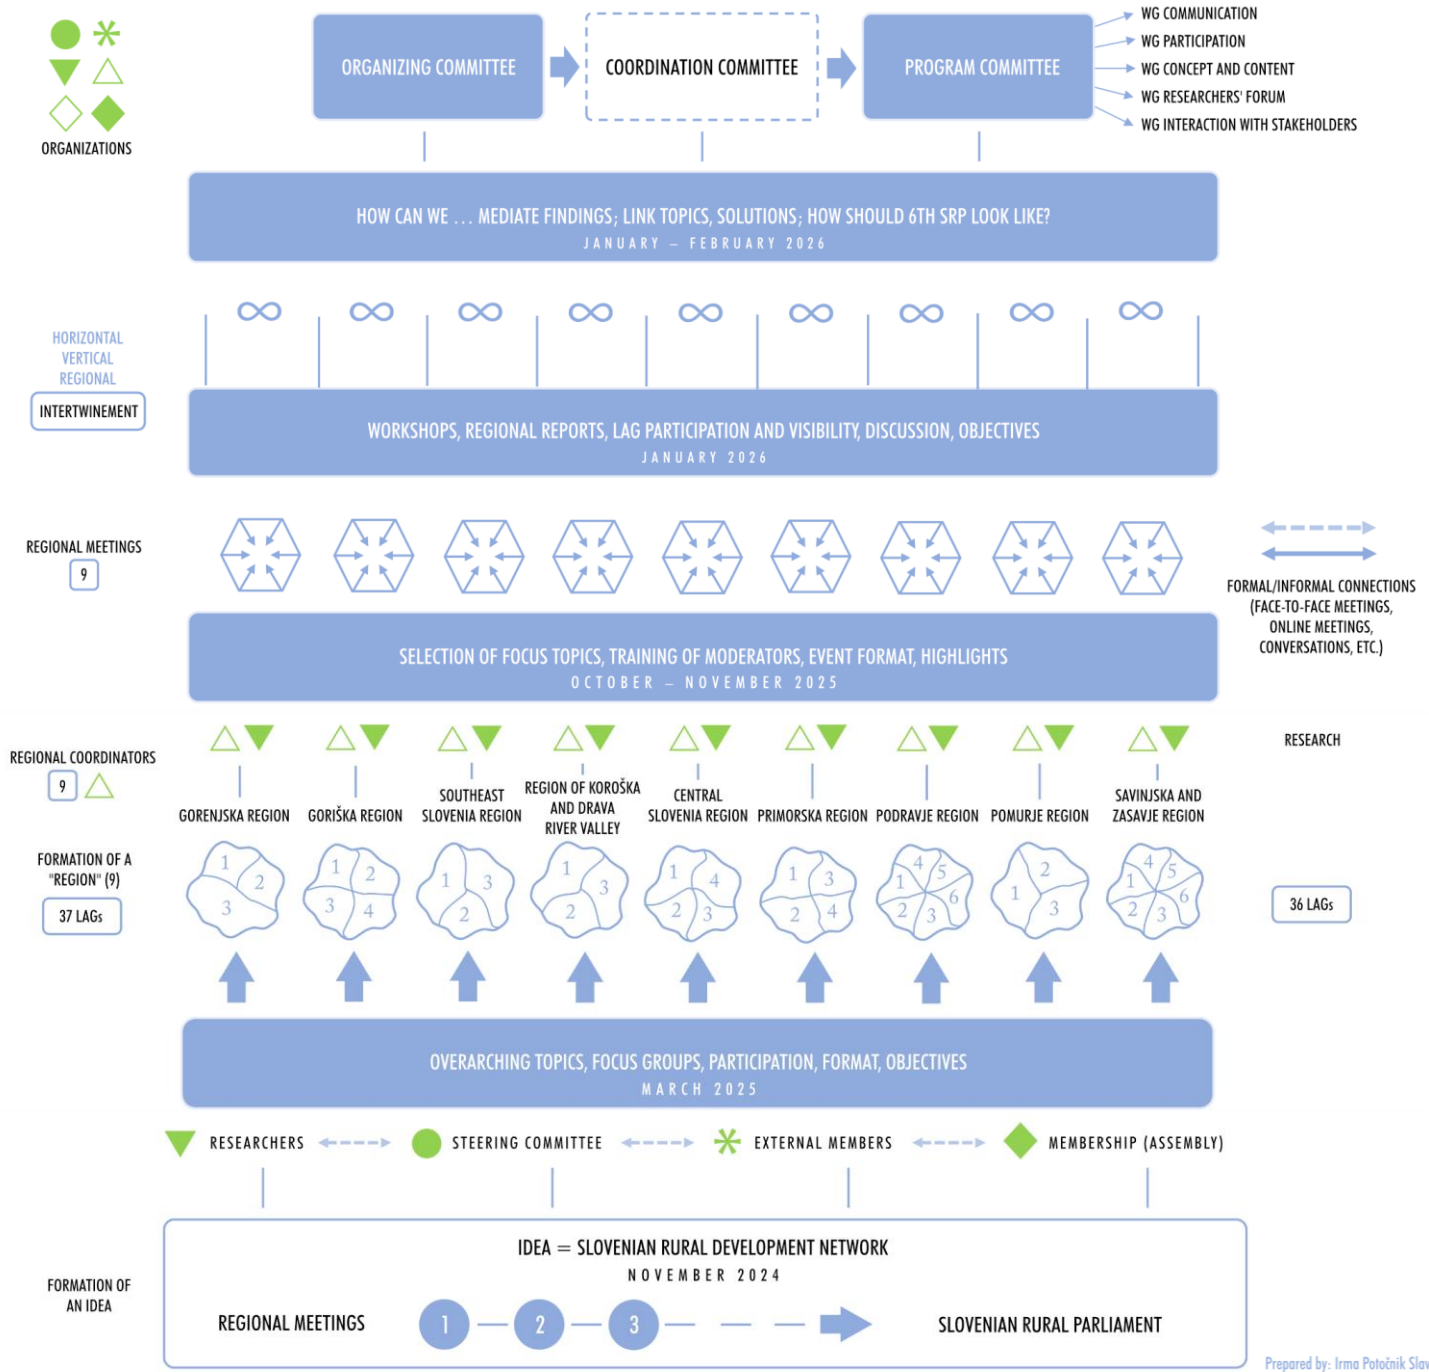

From event to process

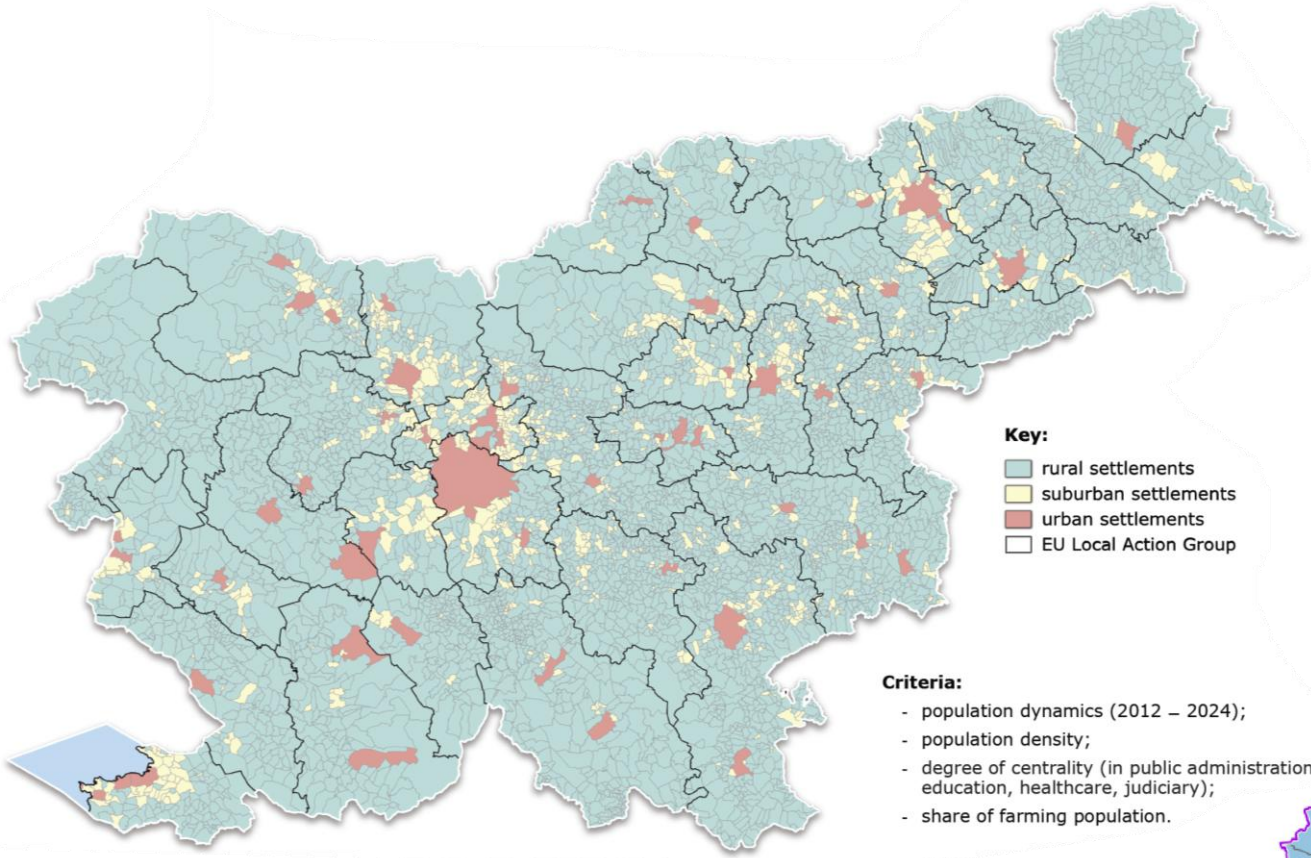

- Critiques of past experiences.
- „The times they are changing …“
- Engaged and ambitious actors and stakeholders.
- From tokenism towards partnership.
- What worked well?
- Fields for improvement.
- Real time monitoring.

POROČILO O IZVEDENEM REGIJSKEM SREČANJU

v območju Gorenjska

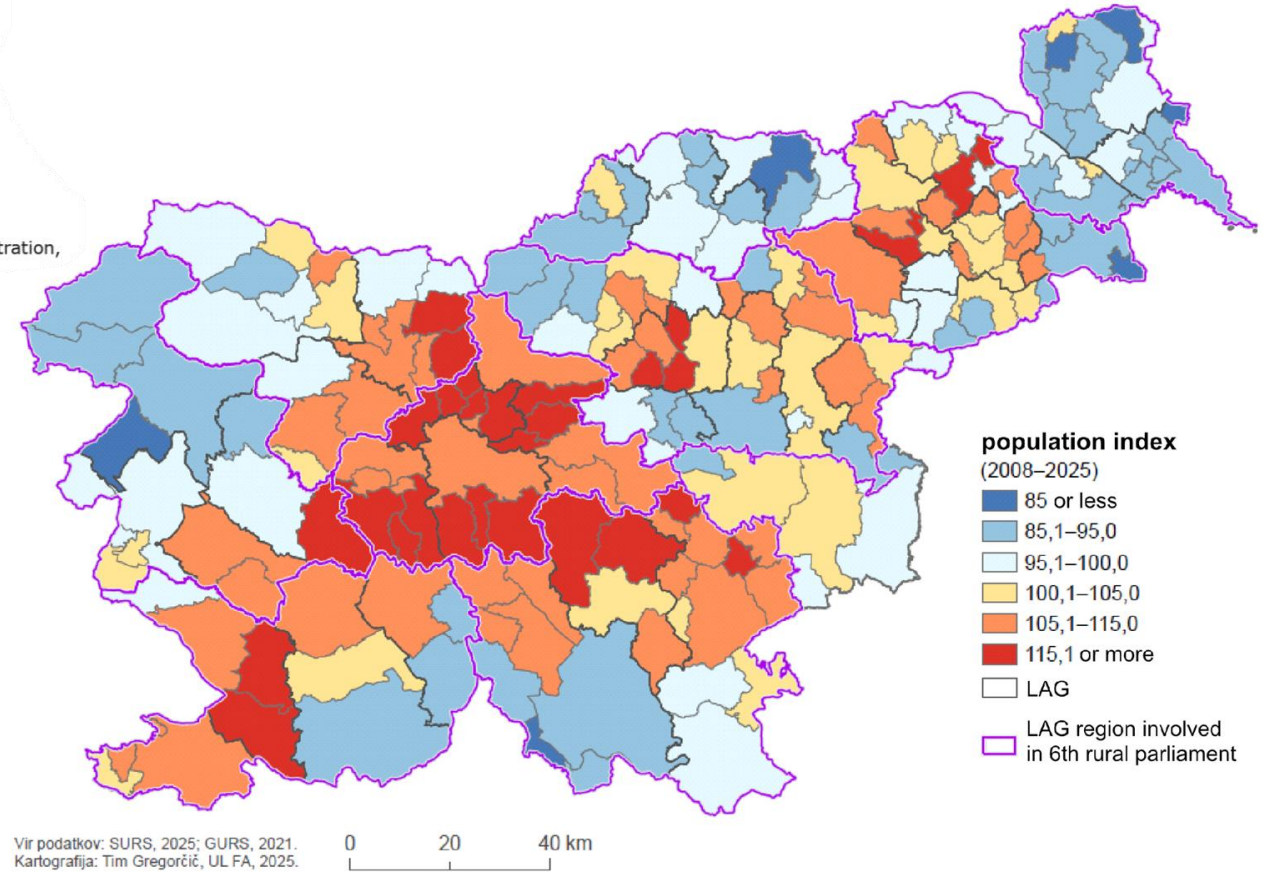

Prepared by: Irma Potočnik Slavič, Layout: Monja Šebela and Miha Brvar, Department of Geography, Faculty of Arts, University of Ljubljana.

Criteria:

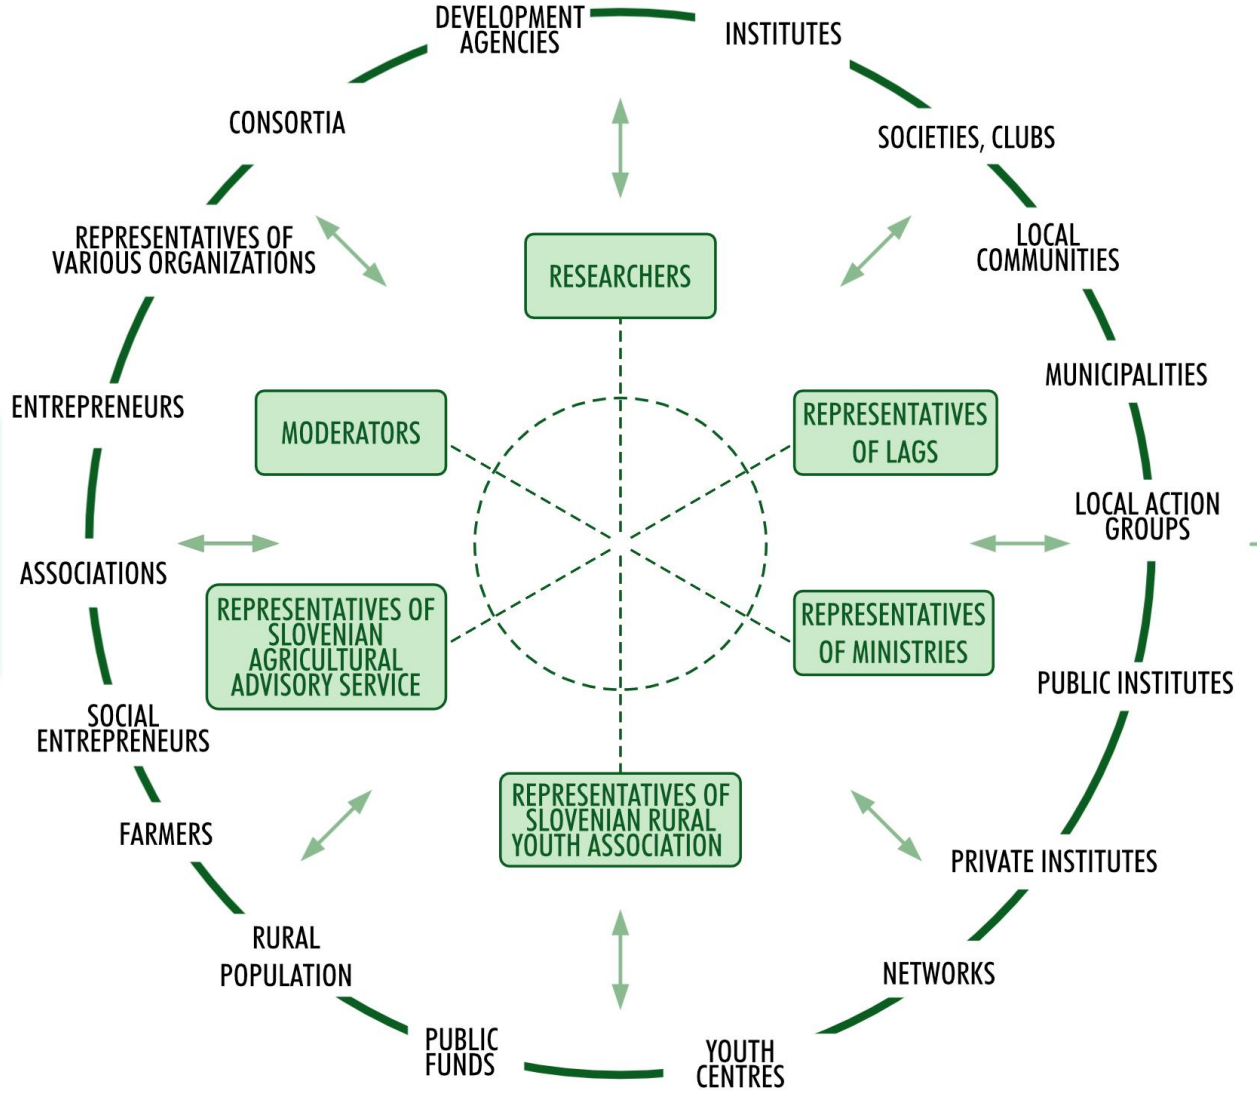

- population dynamics (2012 – 2024);
- population density;
- degree of centrality (in public administration, education, healthcare, judiciary);
- share of farming population.

Heterogenous geographies, contemporary perception of rurality, diversified demographics, perceived common identities, LAG territories and structures.

POLICY BRIEFS (8)

CONCISED, ARGUMENTED, EXPLANATORY, PARTICIPATORY COMMUNICATION … rationale, needs/hurdles/challenges, objectives, key findings (research, discussion), policy implications (*who has interest, who has influence, who it to be impacted*), policy recommendations.

SUGGESTED MEASURES

VOTING RESULTS

MEASURE DESCRIPTION

U1

Uvedba finančnih in davčnih spodbud za obnovo, prenovo, aktivacijo in oddajanje nepremičnin ter prilagoditev za sobivanje

najvišja prioriteta; skupna povprečna ocena približno 4,8/5,0

Opis: Ukrep odgovarja na finančne ovire lastnikov, ki pogosto nimajo sredstev za prenovo ali prilagoditev hiš. Z uvedbo ciljnih subvencij, davčnih olajšav in drugih finančnih instrumentov bi se povečala motivacija za aktivacijo praznih delov hiš, energetsko prenovo ter vzpostavitev dodatnih stanovanjskih enot. Spodbude bi omogočile tudi razvoj sobivanja, kar krepi socialno povezanost in zmanjšuje stroške bivanja.

U2

Popis in redno ažuriranje evidence praznih in premalo izkoriščenih stanovanjskih in drugih nepremičnin ter vključitev evidence v portal krožnega gospodarjenja s prostorom

skupna povprečna ocena približno 4,4/5,0

Opis: Ukrep odgovarja na razpršenost in nepreglednost podatkov o praznih ali delno izkoriščenih stanovanjskih objektih, ki otežuje načrtovanje stanovanjskih politik. Sistematičen popis in redno posodabljanje evidence omogočata občinam in državi, da razumejo dejansko stanje fonda, identificirajo potenciale za aktivacijo ter usmerjajo prostorske in stanovanjske ukrepe. Evidenca kot del portala krožnega gospodarjenja s prostorom podpira učinkovitejšo rabo prostora, zmanjšuje pritisk na kmetijska zemljišča in omogoča bolj transparentno upravljanje nepremičnin.
